Hi Glenn,
I wasn't included in earlier emails so am just seeing this request now.

For TDEC:
Oak Ridge Reservation

- Hg disposal in the EMDF;
- Hg discharge to Bear Creek;
- Waste Acceptance Criteria and design of EMDF;
- gw remediation at ETTP

For other sites in my section I don't know of any big state concerns.

Cathy

TN has been so involved and concerned with the ORR landfill dispute/Mercury anti-deg, I think we should mention it.

Good Afternoon,

Jennifer is in training. Please copy myself on this reply and submit **no later than 1pm today**, as Randall needs to review this before COB. As Jennifer stated please ensure to include detail regarding proposed and finalized NPL sites.

Thanks,
Rhashana

All,

If you could provide me with your feedback by **COB, February 2nd**, I can pull details together that evening to have ready for Randall's review Feb 3rd AM. Remember, nothing long.. just the issue and a couple of sentences. Thank you in advance.

Sincerely,

Jennifer Guillard

Subject: Request for our perspective on issues of concern from our states

All – HQ is trying to get a pulse on issues of concern from our states **from our perspective**. In other words, this isn't currently an ask for us to query the states – just what are the top few issues that we would want HQ to know right up front.

They are not looking for cross cutting issues like PFAS since that is already a known issue – stick with specific state-centric concerns. We haven't received a written ask on this but expect it with short turnaround.

If you could give some thought and send ideas to Aaryn and me by noon Wednesday (Feb. 3), we will run them by John so it can get to HQ Wednesday evening.

We don't need long descriptions – just the issue and a couple of sentences for now to give HQ an awareness.

Thank you!

Carol
